

# Maxwell Hay

Colorado Springs, CO  
[\(719\) 255 8227](tel:7192558227)  
[mhay@uccs.edu](mailto:mhay@uccs.edu)

## Objective

Motivated Computer Science student with a strong foundation foundation in software engineering seeking position at Awesome Co, Manufacturer of Gourmet Widgets. Eager to apply skills in Python, C++, and Java to support the creation of high quality widget software solutions.

## Education

Bachelor's of Computer Science (May 2026)  
University of Colorado - Colorado Springs  
GPA: 3.59

## Experience

### Service Desk Technician - University of Colorado

Colorado Springs, CO  
*August 2022 - Present*

- Provided technical support to customers
- Maintain accurate records of customer interactions
- Assist with the training of new help desk staff

### Software Development Intern - Spectrum

Denver, CO  
*May 2025 - August 2025*

- Developed a metrics dashboard for application tracking
- Helped design log parsers to extract relevant data
- Collaborated with another intern to integrate log data

## Projects

### TVHead Emotions ([Github Repository](#))

Built a full-screen Python application to display and control animated facial expressions on a customizable TV-Head character. This was created as part of a wearable costume/ cosplay and to explore user input handling and real-time animation.
